

FENTON SUPER SHIELD PPE 001- UK DESIGNED AND MANUFACTURED

The Fenton Super Shield is intended to be worn by HealthCare Professionals to protect the face from liquid splashes and bodily fluids when treating infectious patients. Single use or can it can be cleaned and re-used multiple times thus saving money. Offering a simple 3 piece design comprising of PETG clear face shield, LDPE adjustable head strap and forehead infill to prevent particles/contamination being transmitted downwards/vertically

Visor is 1.5mm thick PETG injection moulded, can be cleaned/sterilised (gamma/ETO/e-beam) or single use. The LDPE/HDPE can also be Gamma/ETO gas treated.

Visor shield, adjustable head strap and infill are all injection moulded from production high volume tooling.

NHS Aqua, magenta and royal blue have been colour matched to NHS RAL/Pantone colours. Forest Green and Black have also been recently added to our range. Customer logos, branding and corporate colours are also offered, we can match any colours provided.
