

## Tebis UK Celebrates 25<sup>th</sup> Anniversary

Tebis UK is excited to be celebrating 25 years of operations in the United Kingdom. Since its establishment, the company has delivered advanced CAD/CAM/MES software solutions and services to customers across the UK and Ireland, supporting sectors such as model and pattern making, mechanical component production, and die and mould manufacturing, and serving industries including aerospace, automotive, motorsport, oil and gas, and more.

The company is also a wholly owned subsidiary of Tebis AG, based in Munich, Germany. For over 40 years, Tebis AG has offered world leading advanced intelligent manufacturing technologies for CNC machining process optimisation, standardisation, and CAM automation with its SmartOps technology.

Tebis Virtual Machine technology is fully integrated within Tebis CAD/CAM environment, and it can be used at 3 stages of CAM work. Tebis Virtual Machine technology is vital for CNC machining safety while maximising productivity and improving quality. This is especially important to customers for 2.5D to 5-axis milling, trimming, laser cutting, mill-turn as well as robotic machining.

Tebis CAD/CAM/MES software and technologies are used widely in different industries, such as automotive, motorsports, aerospace, oil & gas, etc. Tebis customers include Aston Martin, Jaguar Land Rover, Bentley, Interform, APH3G, Whiston, Airbus, UTC Aerospace Systems, Liebherr, Porsche, Audi, Daimler, BMW, VW, Tesla, Ford, Opel, Chrysler, Seat, Volvo, Saab, Honda, Toyota and Hyundai.

Tebis UK is also excited to announce that they will be exhibiting at MACH 2026. Set to take place from 20th to 24th April, the exhibition is a key event for the manufacturing industry, providing a platform for companies to showcase their latest innovations.

To celebrate its anniversary, Tebis UK is also giving visitors the chance to win a 3DConnexion device. Visit their stand (19–24) for a software demonstration at MACH 2026, and you will also receive an exclusive discount voucher code for a 3DConnexion device.
