AMPCO METAL EXCELLENCE IN ENGINEERED ALLOYS

WELCOME

to the world of AMPCO METAL!

Dear Customer,
 Thank you for your interest in our Company and our diverse line of engineered copper-based alloys. I am proud to have the opportunity to introduce to you the unique capabilities of AMPCO METAL. Since 1914, AMPCO METAL has been an integrated leader in the production and distribution of aluminum bronzes, specialty copper alloys, welding rod/wire and Safety hand tools, to meet the manufacturing requirements in various industrial markets around the world. AMPCO METAL offers distinctive service by supplying your needs for immediate shipment from our Distribution Centers in Europe, USA, China and INDIA and has become well known as a specialist in providing metal solutions on a worldwide basis. We pledge to be recognized as the leading engineered copper-based alloys provider with distinctive quality metal products and unparalleled customer service. Our name says METAL, but our business means SOLUTIONS. We sell more than metal, we sell service. Superior service is provided by people, and our people are the finest and most effective in the industry. Put us to the test; please contact your local AMPCO METAL representative today!
 We look forward to working with you
 Sincerely yours,

Luis Bento
 Managing Director
 AMPCO METAL

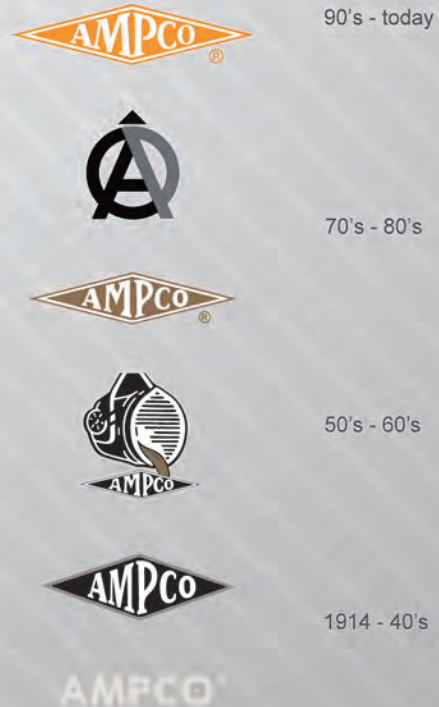

HISTORY

AMPCO METAL was founded in 1914

Early in 1914 a small group of entrepreneurs met to discuss an exciting discovery : "a new bronze hard enough to form steel". The product was to be called AMPCO® Bronze, a name derived from the initials of the Company. The trademark selected was a diamond and the alloy was made through a secret process known only to a select few.

On June 6th, 1914, the inventor, August Littman, with the other entrepreneurs, formed the American Metal Products Company.

Success took some time to come but by the early 30s, AMPCO METAL had achieved a reputation for durability and quality. The American Metal Products Company, renamed in 1930 AMPCO METAL Inc. had built a reputation as a reliable producer of consistent quality. The Company had achieved recognized leadership in the production of aluminium bronze alloys in sand and centrifugal casting but also forgings.

CORPORATE VISION AND MISSION STATEMENT

VISION:
 TO BE RECOGNIZED THE WORLD LEADER IN THE PRODUCTION AND DISTRIBUTION OF SPECIALTY COPPER-BASED ALLOYS

MISSION:
 PROVIDE CUSTOMERS AROUND THE WORLD WITH INNOVATIVE ENGINEERED METAL PRODUCTS AND SERVICES.

This recognition will be the result of the following principles:

1. Customers are the centre of our attention.
2. Excellence in our products and services.
3. Growth through innovation.
4. Protect and promote our brand.
5. Embrace change and reject complacency.
6. Be a respectful and trusted partner.

COMPANY ORGANIZATION

Activities

AMPCO METAL is a fully “Integrated Producer and Distributor”! We are proud of being a vertically integrated supplier with most key processes like melting being “in-house” capabilities. Such characteristic gives us full metallurgical control, the key starting point for quality metal products.

PRODUCTION

Our 3 production foundries (USA, Europe) give our company the local focus needed for any global company close to its customers.

DISTRIBUTION

Our 4 Distribution Centers (USA, Europe, China and India) allow you to leverage on our worldwide inventory.

MACHINING

Our 2 machining units (USA, Europe) allow us to offer not only semi-finished alloy products but a full service that includes machined parts to your own blueprints that meet your specific requirements.

TECHNICAL ASSISTANCE

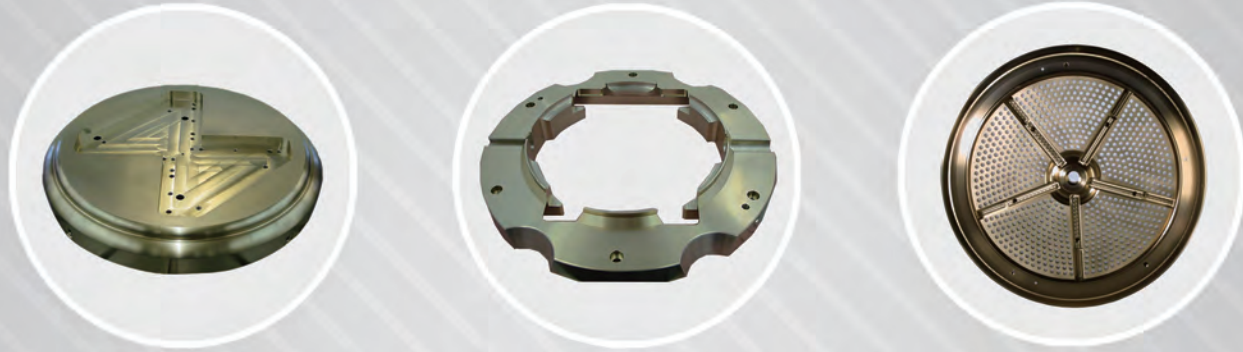

Our worldwide experienced Team of more than 25 Engineers are at your service for any technical challenge faced. We speak more than 20 different languages.
