

This fall will mark ten years since founder, Nick Godfrey, took the plunge and opened the doors of Central Scanning Ltd.

CELEBRATING
10 YEARS
 2006 - 2016

2006: Where it all began...

Way back in 2006, Nick Godfrey opened the door of Central Scanning Limited and from that point, Central have grown from strength to strength and celebrate a

WOW - 10 YEARS!

Celebrating 10 years of 3D Scanning, reverse engineering, inspection & 3D Printing

staggering 10 successful years in the 3D scanning and reverse engineering world!

So, what better way to celebrate than to have a look back over some of the most prestigious projects to date?

The Porsche

In 2006, we scanned a 1959 Porsche RS61 for Paul Freeman to manufacture an exact replica. From the data, we worked with the coach builder and created a 3D block for body manufacture

Laurel & Hardy

In September of 2015 Central Scanning were approached by celebrated Sculptor Graham Ibbeson. And we at

CENTRAL SCANNING
 3D digitizing and verification

Central Scanning had the great pleasure of scanning and 3D Printing his beloved statues of Laurel and Hardy.

Yamination Studios

To ensure that the CG Bart looked as accurate as possible to the puppet version, Yamination studios, based in the West Midlands, specialising in

the stop-motion/frame animation decided the best way was to have

the 3D Bart scanned and they chose Central.

A Shakespeare Story

April 23rd 2016 marked the 400th Anniversary of the death of one of the UK's most famous writers - William Shakespeare. In order to celebrate this special anniversary, Shakespeare's Schoolroom and Guildhall, in collaboration with the Shakespeare Birthplace Trust, organised a special project to feature in the newly refurbished building and Central Scanning were involved!

The Evadors Sculpture

If you happened to attend the RHS Chelsea Flower Show back in 2015 then we have little doubt that you saw the stunning award-winning garden 'The Evaders Garden'

2016 and Beyond!

Central enjoy the fantastic relationships they have with their customers as demonstrated by the superb customer retention and satisfaction record.

In addition Central will continue to deliver quality 3D scanning, reverse engineering, inspection, design and 3D printing, to stay ahead of the game in the decades to come.

Thank you for your continued support and here is to the next 10 successful years!
