

# DAYTON PROGRESS

## YOUR SPECIALIST FOR PRESS DIE COMPONENTS

Complete solutions for Punching  
and Stamping operations

a MISUMI Group Company

Press die components  
by DAYTON PROGRESS

DAYTON PROGRESS is a specialist for stamping components. Whether you require Punches, Die Buttons, Retainers or many other components and accessories - in either standard or special parts - we have the right solution for you. Thanks to years of experience, we can be your point of contact for OEM and Industry standard Press Die products.

Our strength lies in addressing your individual needs. We work with you to find the best possible solutions, either from our standard product range or through special products to your design and specification.

Our Field Engineers and Customer service teams are always available and ready to assist, on site or via telephone and email.

At DAYTON PROGRESS we aim to offer everything you need to equip a press die and we continuously broaden our product range.

Since 2012 we have been part of the MISUMI Corporation. The comprehensive range of the Press Die components have been sold by DAYTON since 2014.
