**GF MS New Technologies Laser Morning (Manufacturing Technology Centre)
Wednesday 7th March 2018 - 09:00 – 13:30**

Agenda

09:00 – 09:30 – Registration + Coffee

09:30 – 09:45 – Welcome / Introduction to GF (Martin Spencer)

09:45 – 11.00 – GF MS New technology (Benjamin Paganelli)

- Laser Texturing: Introduction to GF surface texturing capabilities, for both decorative and functional applications.
- Microlution: High precision micro-machining with ultra-short pulsed laser.
- AM for Tooling: Opportunities for improving performance of mold tools by using conformal cooling.

11.00 – 11.15 – Coffee Break

11.15 – 11.30 – System 3R Tooling For Additive Manufacturing (Peter Lampitt)

- Flexible tooling and automation solutions for integrating AM into the wider process chain.

11.30 – 12.00 – GF MS + MTC – Projects, Overviews and insights (TianLong See)

- Experiences and insights of surface engineering projects conducted at the MTC, and future ideas for use of new technologies in the industry.

12.00 – 12.30 – Lunch

12.30 – 13.30 – MTC Tour / Laser demonstration (Optional)
