PRESS RELEASE

Release Date: July 7, 2026

Big news for precision inspection. The next-generation **Hawkeye Q2** Video Borescope been launched and available from **Optimax**. It blends a sleek, modern redesign with the rugged reliability Hawkeye are known for. With probe diameters ranging from 0.8 mm to 6 mm, it provides a highly adaptable, cost-effective solution for everything from micro-precision medical components to large-scale aerospace turbines and castings.

Key Technical Upgrades Include:

- **Enhanced Visualization:** A 5-inch HD display featuring 360-degree articulation, digital zoom, image freeze, flipping, and crosshair/grid overlays for precise measurement.
- **Advanced Optics:** Rear-mounted fibre optic illumination with an 8-level brightness adjustment, paired with a versatile modular probe system.
- **Modern Workflow & Connectivity:** Built-in Wi-Fi alongside HDMI, Type-C, MicroSD, and Aux interfaces for seamless data transfer.
- **Field Efficiency:** A practical, removable lithium battery to eliminate downtime during long shifts.

If you are looking to upgrade your NDT, the new Q2 offers the flexibility and image quality needed to sign off on inspections with absolute confidence.
