

PRESS RELEASE

19th June 2018

Introducing the Starrett HVR-100 FLIP

Simple, Reliable, Quick and Flexible

Vertical and horizontal capability in one system for instant measurement of a variety of applications from stamped to turned parts

Simple

- Intuitive Metlogix M3 software makes it easy to programme a part into the library
- When the part has been programmed into the library, simply place the part and measure instantly
- No operator measurement experience needed

Reliable

- Auto part recognition ensures the same measurement results each time
- 100's of parts can be programmed into the library
- Customisable reports that save and auto send to recipients

Quick

- No positioning work required – simply place and measure
- Measure in seconds with auto part recognition

Flexible

- Variety of parts can be measured due to the horizontal and vertical measuring positions
- Large field of view allowing for multiple same parts to be measured at the same time
