

Meet the Team at the forefront of innovation for 3D Technologies....

Central Scanning have been a busy bunch so far in 2015 road-showing all over the UK! They have been taking their 3D Scanners to different locations all over alongside 3D Printing experts Tri-Tech 3D and 3D Scanner specialists Steinbichler UK. The roadshows have stretched from Glasgow to Nottingham, Milton Keynes, Leeds & Manchester.

The 3D Roadshows will commence again in September, where they will be in Solihull. The event will take place at the St Johns hotel on the 9th September. Free breakfast is available, and it is a great opportunity to get up close and personal with the 3D Scanners and printers, and is also a good chance to ask the experts on the day any questions you may have.

Grab your free ticket here: <https://www.eventbrite.co.uk/e/3d-roadshow-solihull-tickets-15926235800>

In the meantime keep an eye out for us at the following events:

Milton Keynes Technology Exhibition- 24th June 2015

Manufacturing & Engineering North East- 8th-9th July 2015

The Central Scanning Team
