

Next stop...Glasgow!

After our last success in Leeds, it is time to start planning for our next stop in the UK which is Glasgow.

3D Scanning experts Steinbichler UK alongside ourselves, and 3D Printing experts Tri-Tech 3D will be hosting the next roadshow location at the Grand Central Hotel in Glasgow on the 12th June.

The morning conference will consist of live demonstrations of the technology, as well as some presentations and a Q & A session at the end.

The conference doors will be open from 9am, for a prompt start at 9:30am for the presentations. Breakfast is provided free of charge and the event is completely free to attend.

If you work in the Glasgow area and have an interest/need in 3D Scanning or 3D printing then we recommend you pop over for the morning and see what it's all about!

A friendly atmosphere, with our scanning and printing experts on hand to answer any questions or queries you may have.

If you would like to attend, or would like some more information about the event or any more of our events throughout the year then please drop Catherine an email: catherine@central-scanning.co.uk
