

Press Release

ZEISS is an Official Supplier of Williams Racing

ZEISS and Williams Racing announce partnership ahead of 2021 FIA Formula One World Championship

16th April 2021

ZEISS and Williams Racing announced a partnership with ZEISS becoming an Official Supplier of the team ahead of the 2021 FIA Formula One World Championship.

The partnership will see ZEISS provide a range of equipment, benefiting departments throughout the business including Wind Tunnel, Quality & Inspection and Prototype & Test. The installation of a new ZEISS METROTOM 1500 industrial computed tomography system at the factory in Grove will expand the team's in-house capabilities and deliver greater insights into the quality and integrity of components, ensuring a precise, accurate and robust quality control process. With a continued commitment towards greater business efficiencies, ZEISS will play an integral part in this evolution.

Al Peasland, Head of Technical Partnerships and Innovation at Williams Racing commented, "It's with great pleasure that we can welcome ZEISS as a Williams Racing Official Supplier in a year when ZEISS celebrates the 175th anniversary of pioneering technological advances in optics. Their passion for excellence, and presence as a global leader, will bring new metrology capabilities into the Williams team. The competitive world of Formula One racing demands a continuous drive towards ever greater precision and quality. We're excited to have ZEISS join us on this journey of transformation as we enter a new era for Williams Racing."

Dr. Jochen Peter, member of the ZEISS Group Executive Board responsible for the Industrial Quality & Research segment, commented, "Safety and reliability are indispensable in Formula 1, qualities for which our customers value us and our products worldwide. We are proud to support Williams with our state-of-the-art Industrial Quality Solutions and our commitment to precision and quality."

About ZEISS

ZEISS is an internationally leading technology enterprise operating in the optics and optoelectronics industries. ZEISS develops and distributes lithography optics, measuring technology, microscopes, medical technology, eyeglass lenses, camera and cine lenses, binoculars and planetarium technology. With its solutions, the company constantly advances the world of optics and helps shape technological progress. The company is divided up into the six business groups Industrial Metrology, Microscopy, Medical Technology, Vision Care, Consumer Optics and Semiconductor Manufacturing Technology. Founded in 1846 in Jena, the company is headquartered in Oberkochen, Germany. Carl Zeiss AG is the strategic management holding company that manages the ZEISS Group. The company is wholly owned by the Carl Zeiss Stiftung (Carl Zeiss Foundation).
