

## The Eagle has landed..

Go Tools has recently taken delivery of a state-of-the-art 'Gantry Eagle' EDM Spark Erosion machine at it's new premises on Hellaby Industrial Estate, in Rotherham, South Yorkshire.

Watch this space for more Eagle updates!

### Manufacturers Quote:

With our newest innovation, the GANTRY EAGLE 400, we place benchmarks for high-precision-mould-shops and offer more for the increased requirements in this field.

Highest precision with gantry-construction-method, increased profitability and the consistent utilisation of synergetic effects in machine-design technics for HSC-milling and sink-EDM are making these product highlights one of a kind.

- ✓ Start up for automated erosion-machining
- ✓ New high-end-sink-EDM-machine for small and high accuracy applications
- ✓ Visionary machining-conception for best accessibility and ideal operator-friendliness
